Mexico | +52 921-173-5484 | jon@jonzamudio.com | jon-zamudio.vercel.app | English C1

Frontend engineer with 3+ years shipping React/Next.js dashboards, CRMs, and SaaS interfaces for healthcare, e-commerce, and content platforms. Reduced page load times by 90% via component optimization and Next.js SSR/SSG, and cut feature development time by 75% using AI-assisted workflows (Claude Code, Cursor). Specialized in React, Next.js, TypeScript, testing (Jest/RTL), and CI/CD with GitHub Actions.

EXPERIENCE

Frontend Developer — HeyJimmy

Aug 2025 – Present | Remote

- Delivered websites, dashboards, CRMs, and admin panels for clinics, e-commerce, and content platforms using React, Next.js (App Router, SSR/SSG), TypeScript, and Tailwind CSS; reducing page load times by 90% through component optimization and Core Web Vitals.
- Reduced feature development time by 75% integrating REST APIs and external services alongside AI tools (Claude Code, Cursor, DeepSeek) in the workflow.
- Improved test coverage implementing Jest and React Testing Library, reducing production bugs.
- Accelerated deployments by configuring CI/CD pipelines with GitHub Actions and continuous deployment on Vercel.

Junior Software Engineer — Hospital Comunitario Coatzacoalcos

Aug 2024 – Dec 2024 | On-site / Hybrid

- Built a patient management dashboard used by 200+ healthcare professionals, reducing record lookup time from ~45s to under 1s with React, Tailwind CSS, Express (custom REST API), and MongoDB.
- Increased user autonomy by integrating a Dialogflow chatbot and interactive Chart.js visualizations.

Web Developer — Happy Software

Aug 2022 – Aug 2023 | On-site

- Developed and maintained web applications with JavaScript, HTML5, CSS3, and Tailwind, improving UI consistency through interface design in Figma.
 - Connected applications to MySQL and SQL Server databases via REST APIs, reducing integration errors.
 - Collaborated with cross-functional teams under Scrum methodology to increase delivery speed.
